

Design and build a "Play Your Day at the Zoo" tool

Project Title	Design and build a "Play Your Day at the Zoo" tool
Project Summary	Help millions of National Zoo visitors plan their visits by designing and building a cutting edge "plan your day" tool
Country	United States
Agency	Smithsonian Institution
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	1

Project Description

Using content already on our website (nationalzoo.si.edu), build a session-based (no log in required) "Plan your Day" tool that enables users to add animals, attractions and daily events (demos, talks, etc) to a personalized list. Each item will have location data associated with it, so the tool must plot the items on a Google Map and come up with the most efficient route through the Zoo. The scope of this project may change depending on the ideas / skills of the intern.

Desired Skills Interests

Additional Information

It will be very helpful if you're familiar with Drupal and/or PHP.
